Using these principles you uncover how they drive the collection of the right data and information to perform the right analyses to make better marketing plans, better product designs, and better marketing decisions.

~~Principles of Marketing Engineering and Analytics - Enginius~~

While many view traditional marketing as art and some view it as science, the new marketing increasingly looks like engineering (that is, combining art and science to solve specific problems). Marketing Engineering is the systematic approach to harness data and knowledge to drive effective marketing decision making and implementation through a technology-enabled and model-supported decision process.

~~Principles Of Marketing Engineering Lilien~~

Marketing engineering exists between "big picture" analytics which relies on access to data that most managers don't have (and many companies can't attain), and the traditional "voodoo" intuition that many marketing managers rely on. Worth a read! Just used it to teach a 50 hour course to engineers and project managers in China, was a great hit ...
