Abstract. The Oxford Handbook of Sociolinguistics contains forty chapters dealing with a great variety of topics in the study of language and society. It presents the major theoretical approaches in particular bilingual and multilingual contexts, and both spoken and signed languages. The volume not only offers an up-to-date guide to the diverse areas of the study of language in society, but also numerous guideposts to where the field is headed.

The Oxford Handbook of Sociolinguistics. Edited by Robert Bayley, Richard Cameron, and Ceil Lucas. Oxford Handbooks. Description. From its beginnings in the 1960s, sociolinguistics developed several different subfields with distinct methods and interests: the variationist tradition established by Labov, the anthropological tradition of Hymes, interactional sociolinguistics as developed by Gumperz, and the sociology of language represented by the work of Fishman.

[The Oxford Handbook of Sociolinguistics - Hardcover ...](#)

The Oxford Handbook of Sociolinguistics will differ from existing work in four major respects. First, it will emphasize new methodological developments, particularly the convergence of linguistic anthropology and variationist sociolinguistics. Second, it will include chapters on sociolinguistic developments in areas of the world that have been relatively neglected in the major journals.

[The Oxford Handbook of Sociolinguistics by Robert Bayley ...](#)

"The Oxford Handbook of Sociolinguistics [is] an invaluable new contribution to the field of sociolinguistics, as it presents the interdisciplinary development of this field over the past decades. While it certainly stands out for its careful organization of abundant material, it must be especially praised for the special attention given to relevant topics that pertain to modern-day social preoccupations.

The Handbook of Sociolinguistics | Wiley Online Books

Abstract. This book challenges basic concepts that have informed the study of sociolinguistics since its inception in the 1960s. It challenges the modernist positivist perspective of the field that has treated languages and speech communities as bounded and the idealized native speaker as the ultimate authority.
