### Threatens Illiteracy

Unscientific America. The  
Crisis of Scientific

Illiteracy. Climate change,  
the energy crisis, global  
pandemics, nuclear  
proliferation—many of the  
most urgent problems of the  
twenty-first century require  
science-based solutions. Yet  
Americans are paying less  
and less attention to  
scientists. For every five  
hours of cable news, less  
than a minute is devoted to  
science; the number of  
newspapers with weekly  
science sections has  
shrunk by two-thirds over  
the past several decades.

[( Unscientific America: How Scientific Illiteracy ... Unscientific America: How Scientific Illiteracy Threatens Our Future is a nonfiction book by Chris Mooney and Sheril Kirshenbaum. It was a New York Times best seller. In the book, the authors tackle the problem of scientific illiteracy in America. The authors criticize scientists for talking down to the misinformed and insulting the religious while calling for more friendly and magnanimous science advocates. They also blame

A plea for enhanced  
scientific literacy,  
Unscientific America urges  
those who care about the  
place of science in our  
society to take  
unprecedented action. We  
must begin to train a small  
army of ambassadors who can  
translate science's message  
and make it relevant to the  
media, to politicians, and  
to the public in the  
broadest sense.

America is unscientific, but the authors choose to blame it all on the George W. Bush administration...which way oversimplifies and politicizes the problem. As a 28-year federal employee involved in science, I found that all administrations have their positives and negatives when it comes to science, and the current one doesn't want to hear about science it doesn't agree with any more than the previous one.

Early critics of the philosophy of eugenics included the American sociologist Lester Frank Ward, the English writer G. K. Chesterton, the German-American anthropologist Franz Boas, who argued that advocates of eugenics greatly over-estimate the influence of biology, and Scottish tuberculosis pioneer and author Halliday Sutherland.
